Tezpur University Entrance Examination(TUEE),2024

Name	
Application No.	
Roll No.	
Paper	MASTER OF COMPUTER APPLICATION (M.C.A.)
Date of Examination	11-06-2024
Batch Start Time	09:00 AM
Batch End Time	10:30 AM

QID : 51 - What is the next number in the series: 1 3 4 7 11 18 29 __ ?

Options:

1) 36
2) 40
3) 47
4) 50

Correct Answer: 3) 47

Candidate Answer: 3) 47

QID : 52 - What is the next group of letters in the series: ACE HJL OQS ___?

Options:

1) UWY
2) VXZ
3) TVX
4) UVZ

Correct Answer: 2) VXZ

Candidate Answer: 2) VXZ

QID : 53 - Consider the following statements:
I. Adam is taller than Bob.
II. Eve is taller than Bob.
III. Adam is the tallest of the three.
IV. Eve is the shortest of the three.
If statements I and II are known to be true, then what can we say about the statements III and IV?

Options:

1) III and IV are always true
2) III and IV are always false
3) III is uncertain and IV is definitely false
4) III is definitely false and IV is uncertain

Correct Answer: 3) III is uncertain and IV is definitely false

Candidate Answer: 3) III is uncertain and IV is definitely false

QID : 54 - In a coded language COMPUTER is written as AMKNSRCP. What will SCIENCE be encoded as?

Options:

1) RBHCMBC
2) QAGCLAC
3) QBGCLBC
4) RAHCMAC

Correct Answer: 2) QAGCLAC

Candidate Answer: 2) QAGCLAC

QID : 55 - Which of the following pairs of words have the same relationship as the pair GLOVE : HAND?

Options:

1) SHOE : SOCK
2) SHIRT : POCKET
3) HELMET : HEAD
4) CUP : PLATE

Correct Answer: 3) HELMET : HEAD

Candidate Answer: **3**) HELMET : HEAD

QID : 56 - In the given series, which word fits in the blank space? Triangle, Square, ____, Hexagon

Options:

1) Circle
2) Rectangle
3) Parallelogram
4) Pentagon

Correct Answer: **4**) Pentagon

Candidate Answer: **4**) Pentagon

QID : 57 - Which of the following is the odd one out?

Options:

1) 3
2) 13
3) 23
4) 33

Correct Answer: **4**) 33

Candidate Answer: **1**) 3

QID : 58 - In a particular arithmetic system @ is a binary operator such that the following equations are true:
1@2 = 2@1= 5
2@3 = 3@2 = 13
1@3 = 3@1 = 10
What will be the value of 2@4?

Options:

1) 20
2) 25
3) 30
4) 33

Correct Answer: **1**) 20

Candidate Answer: **1**) 20

QID : 59 - A, B, C, D are positive integers. If A equals B, B is greater than C, and C is a multiple of D, which of the following statements is true?

Options:

1) D is greater than A, B, and C
2) D is less than A, B, and C
3) D is less than C but may or may not be less than A and B
4) D is greater than C but may or may not be greater than A and B

Correct Answer: **2**) D is less than A, B, and C

Candidate Answer: **2**) D is less than A, B, and C

QID : 60 - What will be the next number in the series: 0.25, 0.5, 1, 1.75, 2.75, 4, ___?

Options:

1) 5
2) 5.25
3) 5.5
4) 5.75

Correct Answer: **3**) 5.5

Candidate Answer: **2**) 5.25

QID : 61 - Odometer is to mileage as compass is to _____.

Options:

1) speed
2) hiking
3) needle
4) direction

Correct Answer: **4**) direction

Candidate Answer: **1**) speed

QID : 62 - The average of 60 numbers is 35. If two numbers, 43 and 49, are discarded, then what will be the average (approximate) of the remaining numbers?

Options:

1) 36.42
2) 34.62
3) 32.46
4) 43.75

Correct Answer: 2) 34.62

Candidate Answer: 2) 34.62

QID : 63 - How many Permutations of the letters of the word APPLE are there?

Options:

1) 60
2) 120
3) 240
4) 80

Correct Answer: 1) 60

Candidate Answer: 1) 60

QID : 64 - What is the area of an equilateral triangle with a side length of 8 cm?

Options:

1) $9\sqrt{3}$ cm^2
2) $16\sqrt{3}$ cm^2
3) $24\sqrt{3}$ cm^2
4) $18\sqrt{3}$ cm^2

Correct Answer: 2) $16\sqrt{3}$ cm^2

Candidate Answer: 2) $16\sqrt{3}$ cm^2

QID : 65 - If ‘a’ and ‘b’ are two sides of a right angled triangle, ‘c’ is the hypotenuse, then which of the following is TRUE?

Options:

1) $a^2 + b^2 = c$
2) $a + b = c^2$
3) $c^2 = a^2 - b^2$
4) $c^2 = a^2 + b^2$

Correct Answer: 4) $c^2 = a^2 + b^2$

Candidate Answer: 4) $c^2 = a^2 + b^2$

QID : 66 - How much time will it take for an amount of Rs. 650 to yield Rs. 93 as interest at 5% per annum of simple interest (approx.)?

Options:

1) 2.76 years
2) 1.86 years
3) 2.54 years
4) 2.86 years

Correct Answer: 4) 2.86 years

Candidate Answer: 4) 2.86 years

QID : 67 - If two dices are thrown in the air, the probability of getting sum as 3 will be_____.

Options:

1) 2/18
2) 3/18
3) 1/18
4) 1/36

Correct Answer: 3) 1/18

Candidate Answer: 3) 1/18

QID : 68 - The number of multiples of 4 between 10 and 250 is _____.

Options:

1) 30
2) 40
3) 50
4) 60

Correct Answer: 4) 60

Candidate Answer: 4) 60

QID : 69 - What is the solution of the system of equations 2x - y = 1 and x + y = 5?

Options:

1) x = 2, y = 3
2) x = 3, y = 2
3) x = 1, y = 4
4) x = 4, y = 1

Correct Answer: 1) x = 2, y = 3

Candidate Answer: 1) x = 2, y = 3

QID : 70 - In a circle, if the angle subtended by an arc at the centre is equal to 100 degrees, then the angle subtended by that arc at any point on the circumference will be equal to _____.

Options:

1) 200 degrees
2) 135 degrees
3) 50 degrees
4) 25 degrees

Correct Answer: 3) 50 degrees

Candidate Answer: 3) 50 degrees

QID : 71 - Ram and Hari together have an amount of Rs.1000. If 4/5 of Ram's amount is equal to 6/5 of Hari's amount, how much does Hari have?

Options:

1) 300
2) 400
3) 500
4) 600

Correct Answer: 2) 400

Candidate Answer: 2) 400

QID : 72 - Radha earns 22% of her investment. If she earns Rs 187, then how much did she invest?

Options:

1) Rs 650
2) Rs 750
3) Rs 850
4) Rs 950

Correct Answer: 3) Rs 850

Candidate Answer: 3) Rs 850

QID : 73 - Which of the following is not true with respect to an equilateral triangle?

Options:

1) All the sides are equal in length.
2) All the angles are equal to 45 degrees.
3) An equilateral triangle is also equiangular.
4) All the angles are equal to 60 degrees.

Correct Answer: 2) All the angles are equal to 45 degrees.

Candidate Answer: 2) All the angles are equal to 45 degrees.

QID : 74 - The radii of the two circular ends of the bucket are 22 cm and 12 cm. The height of the bucket is 35 cm. The capacity of the bucket is _____.

Options:

1) 32.7 litres
2) 33.7 litres
3) 34.7 litres
4) 31.7 litres

Correct Answer: **1**) 32.7 litres

Candidate Answer: [NOT ANSWERED]

QID : 75 - The shift register which can be used for serial to parallel data conversion is a _____register.

Options:

1) SIPO
2) PISO
3) PIPO
4) SISO

Correct Answer: **1**) SIPO

Candidate Answer: [NOT ANSWERED]

QID : 76 - The number of 2Kx4 chips required to compose a memory chip of size 8K x 32 is _____.

Options:

1) 4
2) 8
3) 16
4) 32

Correct Answer: **4**) 32

Candidate Answer: **4**) 32

QID : 77 - Which data structure is based on the Last In First Out (LIFO) principle?

Options:

1) Tree
2) Linked List
3) Stack
4) Queue

Correct Answer: 3) Stack

Candidate Answer: [NOT ANSWERED]

QID : 78 - In the context of computing, what is the full form of URL?

Options:

1) Undistributed Resource Locator
2) Unified Resource Locator
3) Uniform Resource Locator
4) Uniform Region Locator

Correct Answer: 3) Uniform Resource Locator

Candidate Answer: 3) Uniform Resource Locator

QID : 79 - The speed of the Central Processing Unit (CPU) is measured in_____ .

Options:

1) Gigabyte
2) Hertz
3) Terabyte
4) Kilobyte

Correct Answer: 2) Hertz

Candidate Answer: 4) Kilobyte

QID : 80 - What is the term for the data communication system within a building or campus?

Options:

1) MAN
2) PAN
3) LAN
4) WAN

Correct Answer: 3) LAN

Candidate Answer: 3) LAN

QID : 81 - Which type of data can be stored in the database?
I. Image data
II. Text data
III. Audio data
IV. Video data

Options:

1) Only I
2) I and II
3) I, II and III
4) I, II, III and IV

Correct Answer: 4) I, II, III and IV

Candidate Answer: 4) I, II, III and IV

QID : 82 - The full form of SQL is _____.

Options:

1) Structured query language
2) Sequential query language
3) Serial query language
4) Synchronous query language

Correct Answer: 1) Structured query language

Candidate Answer: 1) Structured query language

QID : 83 - ASCII stands for _____.

Options:

1) American Standard Code for Information Interchange
2) American Standard Code for International Interchange
3) American Standard Collection for Information Interchange
4) American Sequence Code for Information Interchange

Correct Answer: 1) American Standard Code for Information Interchange

Candidate Answer: 1) American Standard Code for Information Interchange

QID : 84 - Which of the following is not a valid C variable name?

Options:

1) int number;
2) char c;
3) int %main;
4) float per;

Correct Answer: 3) int %main;

Candidate Answer: 1) int number;

QID : 85 - Can functions return enumeration constants in C?

Options:

1) True
2) False
3) Depends on the compiler
4) Depends on the version of C

Correct Answer: 1) True

Candidate Answer: [NOT ANSWERED]

QID : 86 - The C code 'for(;;)' represents _____.

Options:

1) Infinite loop
2) Incomplete loop
3) Loop with no conditions
4) Loop that can be terminated by abort()

Correct Answer: **1**) Infinite loop

Candidate Answer: [NOT ANSWERED]

QID : 87 - What will be the output of the following C code?

```
#include <stdio.h>
void main ()
{
    int k = 0;
    for (k < 3; k++)
    printf("Hello");
}
```

Options:

1) Compile time error
2) “Hello” is printed three times
3) “Hello” is printed twice
4) Output depends on compiler

Correct Answer: **1**) Compile time error

Candidate Answer: **2**) “Hello” is printed three times

QID : 88 - What is the range of signed char data type in C Programming?

Options:

1) -128 to 127
2) 0 to 255
3) -32768 to 32767
4) 0 to 128

Correct Answer: **1**) -128 to 127

Candidate Answer: **1**) -128 to 127

QID : 89 - Find the invalid representation in bits.

Options:

1) 32 bits
2) 64 bits
3) 24 bits
4) 8 bits

Correct Answer: 3) 24 bits

Candidate Answer: 3) 24 bits

QID : 90 - Which of the following is not a basic data type in C?

Options:

1) int
2) float
3) simple
4) char

Correct Answer: 3) simple

Candidate Answer: 3) simple

QID : 91 - What does #include <stdio.h> mean?

Options:

1) File inclusion
2) Preprocessor directive
3) Main function
4) Used for logical operators

Correct Answer: 2) Preprocessor directive

Candidate Answer: 2) Preprocessor directive

QID : 92 - How many times the value of 'i' is checked in the following C code?

```
#include <stdio.h>
int main()
{
  int i = 0;
  while (i < 3)
    i++;
  printf("In while loop\n");
}
```

Options:

1) 2
2) 3
3) 4
4) 5

Correct Answer: 3) 4

Candidate Answer: [NOT ANSWERED]

QID : 93 - Complete the following sentence:
On top of the hill _____.

Options:

1) an enormous Chittorgarh fort stood
2) stood the enormous Chittorgarh fort
3) the Chittorgarh fort stood enormous
4) Chittorgarh fort stands enormous

Correct Answer: 2) stood the enormous Chittorgarh fort

Candidate Answer: 4) Chittorgarh fort stands enormous

QID : 94 - Complete the following sentence:
The priority is to bring _____.

Options:

1) back safely passengers
2) safely passengers
3) the passengers home safely
4) home passengers

Correct Answer: 3) the passengers home safely

Candidate Answer: **3**) the passengers home safely

QID : 95 - Complete the following sentence:
By next Friday he _____ staying at my house for two weeks.

Options:

1) will have
2) shall have
3) shall have been
4) will have been

Correct Answer: **4**) will have been

Candidate Answer: **4**) will have been

QID : 96 - Complete the following sentence:
Oh, I am really sorry. I wish I _____ that antique showpiece.

Options:

1) had never attempted to lift
2) did not buy
3) would not have broken
4) can buy

Correct Answer: **1**) had never attempted to lift

Candidate Answer: **3**) would not have broken

QID : 97 - Pick the antonym of Assuage

Options:

1) Wrap
2) Ameliorate
3) Detest
4) Provoke

Correct Answer: **4**) Provoke

Candidate Answer: **4**) Provoke

QID : 98 - Pick the synonym of Rancorous

Options:

1) Acrimonious
2) Courteous
3) Churlish
4) Regurgitate

Correct Answer: 1) Acrimonious

Candidate Answer: [NOT ANSWERED]

QID : 99 - Which statement is CORRECT?

Options:

1) While many living in apartments have access to water from a Sewage Treatment Plant (STP) and is usually reused, independent houses have no such option.
2) While many living in apartments have access to water from a Sewage Treatment Plant (STP), and is usually reused, independent houses do not have option.
3) Many living in apartments have access to water from a Sewage Treatment Plant (STP), which is usually reused, independent houses no option.
4) While many living in apartments have access to water from a Sewage Treatment Plant (STP), which is usually reused, independent houses have no such option.

Correct Answer: 4) While many living in apartments have access to water from a Sewage Treatment Plant (STP), which is usually reused, independent houses have no such option.

Candidate Answer: 4) While many living in apartments have access to water from a Sewage Treatment Plant (STP), which is usually reused, independent houses have no such option.

QID : 100 - Which of the following true statements can we conclude from the following passage?
The Great Red Spot captured by NASA's Juno is twice the size of the Earth and has been in existence for over 350 years. NASA often shares mesmerising pictures of our planets, galaxies and beyond, providing insight into the wonders of our universe. Recently, the space organisation took to Instagram to share a picture of the Great Red Spot on Jupiter captured by their spacecraft Juno. The Great Red Spot is a storm that's twice the size of the Earth and has been in existence for over 350 years. "Our spacecraft Juno captured Jupiter's Great Red Spot in this true colour portrait from around 8,648 miles (13,917 km) away," wrote NASA while sharing the picture on Instagram. They added that the size of the storm is shrinking, its height by an eighth and width by a third. The organisation also informed, "Scientists believe that our solar system's most iconic storm has existed for over 350 years, though data suggest that the storm is shrinking, its height diminishing by an eighth and its width by at least a third since it was measured by our Voyager spacecraft in 1979." They further shared, "The Great Red Spot is still twice as large as Earth, and recent studies by Juno indicate that the storm plunges around 200 miles (300 km) beneath the planet's clouds. With no solid ground on Jupiter to weaken storms, winds in the Great Red Spot peak at about 400 mph (643 kph)." The picture shared by NASA shows the Great Red Spot in the centre, surrounded by spiralling wisps of red, tan, and orange. The upper part of the picture shows Jupiter's horizon in a contrasting beige, brown, and blue hue. The picture was shared a few hours ago on Instagram. It has since collected over two lakh likes, and the numbers are still increasing.

Options:

1) NASA has joined the world of Instagram — and has already attracted an incredible 60,133 followers within hours of posting its first pictures.
2) Astronauts' social media posts are a big part of why NASA attracts so many followers.
3) "Every photo tells a story".
4) Juno has helped NASA get a glimpse of the universe.

Correct Answer: 3) "Every photo tells a story".

Candidate Answer: 4) Juno has helped NASA get a glimpse of the universe.
